\*GM Certified 604 crate must have original seals from GM and meet GM specs. No updates or resealing allowed to be eligible for weight break.

- All cars will be allowed up to a maximum left side weight percentage up to **60% at Marshfield**, Max left side weight **at DRP and GSS will be 58%**
- Drivers may not drop more than 75 lbs from one race to another with engine/weight combination switch. This deduction is from the base weight BEFORE additional deductions. Drivers who were at 2750 at WIR can weigh no less than 2675 (team driver included)
